

# EZYTRAIL Campers STIRLING LX<sup>Mk2</sup>

Camping made ezy... 1300 962 267

## “THE LEGEND CONTINUES”

The most versatile forward folding family trailer within our camper trailer range has just been upgraded. Due to a fully automated electric roof system, opening the camper has never been so quick and easy. With extra storage boxes for poles and fishing gear at the back of the rear slider, the entire front toolbox is freed up. One of the compartments is even accessible from the inside of the trailer, this is an ideal spot for that flashlight or repelling spray. Speaking about mosquitos, tick in the box for the re-designed power/water tank control panel, re-located near the kitchen, you no longer face weather conditions or bugs to switch on check your 2x 100Ah battery life. If that's not flash enough, we have added the long requested water tank level indicators as well. Cooking at the gas plumbed 4 stove burner has never been more rewarding. We have reversed the kitchen slide set-up and you have now access to an extra pantry box, you can watch your little ones while cooking and more space is created in the middle of the annexe tent. The splash guard, cutlery draw and our brand new dry rack will give you that extra panache.

## “THE LEGEND KEEPS ADDING”

The leatherette button-free cushions might be seen as luxury, but when your little ones spill their yummy hot chocolate, you will appreciate our design team also had those camping experiences in mind. The bamboo floor keeps the Stirling LX Mk2 easy to clean while giving the interior a high quality finish. Like all our trailers, the new Stirling LX Mk2 comes with our tried and tested independent suspension system, fully adjustable with coils springs and twin shock absorbers. Every family should be able to go places and show their family the beauty of the Australian outdoors. Mounted over the trailer roof comes a foldaway a boat/luggage rack capable of carrying up to 150kg of cargo. No need to upgrade your bedding, you'll wake up feeling relaxed on the high density foam mattress and we've now added a fully screened in mesh so you can leave the alfresco blind up on those hot nights.

The main tent and awning are made from high quality 450gsm poly-cotton fine weave canvas and all stress points are double stitched throughout for durability.

**“ AUTOMATED FOR QUICKER SET-UP”**

Windows are screened with fiberglass midge-proof mesh for added durability and the canvas tropical roof will give you extra protection and cool down the main tent. With the storage compartments at the rear slider, the annex gives you an extra 350mm. Standard comes an attachable nylon ensuite tent for that extra bit of luxury and convenience. Packing up the main tent can be achieved in less than two minutes using the all new remote controlled gear driven electric actuator. Providing the ultimate camping experience with one of the most affordable and best balanced trailers on the market is what the all new Stirling LX Mk2 is all about.
