STIRLING Z

“COMPACT, SLEEK & READY FOR ACTION”

The next generation of Forward Folding campers has arrived, the all new Z Series Stirling maybe light weight but it certainly packs a punch when it comes to off-road credibility. Fully galvanised 100 x 50 x 3mm drawbar & chassis sitting on Ezytrail's proven high ride independent suspension will have you taking this little ripper anywhere you want to go. Packed with features including 100A/h deep cycle sealed battery, on board water supply and 4 burner stove, your campsite will feel like a home away from home.

“IT'S THE FINER DETAILS THAT COUNT”

Designed with the same breeding as our K Series range, you'll find the quality, finish and superior handling are quite refined. Featuring baked enamel exterior with stainless steel trim and 15" Alloy Wheels, the Stirling Z not only rides well but looks just as good to boot. The utility box on the drawbar is large enough for most 80Lt fridges and we've added 2 x 20Lt jerrycan & 2 x 4.5Kg gas bottle holders behind the integrated stone guard for protection. Once fully setup the large living space measures over 18sqm giving your more than enough room for those longer stays.
