ALBANY GT

“SLEEK, STYLISH & TOUGH”

From the very first moment you come face to face with the all new Albany GT, your eyes will be drawn to its stylish and sleek design. From its striking drawbar mounted utility box with ample room for even the largest fridges, through to its low profile, aggressive main body styling finished in baked enamel. Sitting high on fully adjustable trailing arm independent suspension with dual shock absorbers and riding on a set of 265/75/R16 All-Terrain tyres and 16" alloy wheels, the Albany GT makes light work of the many different challenges you can throw at it. The main body is constructed from zinc galvanised panels and 100 x 50 x 4mm Q345 RHS hot dipped galvanised drawbar & chassis.

The Albany GT is fitted with all the running gear needed for camp including 4 drop down adjustable stabiliser legs, 10" ratcheting jockey wheel, swing out spare wheel holder and roof racks over the main body with utility box. For those long treks we've added dual stainless steel water tanks with a total capacity of 195Lt (60Lt front and 135Lt rear), plus you'll find plenty of on board power with twin 100Ah AGM deep cycle batteries all controlled from the master power panel and Battery Monitoring System fitted inside the main tent.

“ABSOLUTE LUXURY WITH A BOLD PERSONALITY”

We thought we redesign the kitchen to suit the master chef in all of us, starting with the new reversed layout of the kitchen slide, facing toward the rear giving you that feeling of a more open plan. The utility box on the drawbar with its car door styled opening now represents the ultimate in organization providing you with the classic triangle format found in most high end household kitchens. Plenty of draw space in the utility box gives you the freedom and storage of a fully equipped pantry, the fridge slide measures a whopping 600W x 950L x 580H providing enough room to fit most fridges up to 110Lt available from the major brands.

You'll find the finishes throughout the Albany GT have been meticulously thought through, all boxes and storage come fully lined with marine carpet as does the main tent floor, the two internal draw slides & fascia panel under the main bed area are finished in high quality timber laminate for that added luxury feel. Fitted to the Albany GT is our new entertainment system featuring a Sony 4 speaker sound deck with USB playback and built in CD player.

“INNOVATIONS THAT SET TRENDS”

Designing the tent from the ground up was top of mind when the Albany GT was first conceived, we think we achieved the ultimate in first class innovation that will change the way you look at camper trailers forever. An all new lightweight alloy pole construction with quick-lock pole clamps replaces the old fashion t-nuts on most tents making for a much quicker and easier set up, standard features include a nylon fly over the main tent area and all screens and doors are finished with high strength fibreglass midge-proof mesh. The awning is extended beyond the kitchen providing you with a massive undercover outdoor area measuring 5900mm x 2400mm, this can be fully enclosed with walls and floor as standard on the Albany GT. New to the model line-up is our trend setting alfresco style main tent opening that brings the indoors outdoors and creates the feeling of space, once again with today's modern living you'll find this feature brilliant during those warm summer evenings.

The main tent and awning are made from high quality 450gsm (15.8oz) polycotton fine weave canvas and all stress points are double stitched throughout for durability, as standard there's an attachable nylon ensuite tent for that extra bit of luxury and convenience. No need to upgrade your bedding, you'll wake up feeling relaxed after a great night's sleep on the high quality custom designed inner spring mattress base fitted to the Albany GT. When you're ready to leave packing up is quick and easy, with the main tent ready to go using the 1200Nm winch on the front of the trailer you'll be on your way in no time. Mounted on the trailer roof inside the roof rack we've added two convenient pole storage boxes for quick access and fast pack away of all your awning poles, pegs and ropes, "No more need to rummage through pole bags". Sleek, stylish & tough with absolute luxury a bold personality and innovations that will definitely set trends that is what the all new K series Albany GT from Ezytrail is all about.
